

CVS Caremark Vaccination Program

NAPEBT will be offering seasonal and nonseasonal vaccine elections at retail pharmacies at no cost to the employee or family members who are on the group health plan.

The following seasonal vaccines may be available once the vaccine has been released to the marketplace by the manufacturer in August through April.

- Injectable Seasonal Influenza Vaccine (Trivalent)
- Injectable Seasonal Influenza Vaccine (Quadrivalent)
- Intranasal Seasonal Influenza Vaccine (FluMist)
- Intradermal Influenza Vaccine Quadrivalent (Short Needle) and Flublok
- Injectable Seasonal Influenza – Vaccine

The following nonseasonal vaccines may be available at retail pharmacies for children and adults. Not all participating retail pharmacies will stock all available vaccines, so call the pharmacy to confirm availability.

Children:

- Haemophilus B
- Haemophilus B, Hepatitis B
- Meningococcal, Haemophilus B, Tetanus
